## INSTALLATION BY OTHERS (IF NOT PERFORMED BY GREASE DUCKS INC.)

---

Field notes: Installation, ductwork, patching, all electrical field wiring, start-up & balance, gas or electric shutdown for fire system hook-up, **fire system hook-up, fire system chemical agent, NO2 cartridge, field piping, detection and pull station line(s), tests and permits.**

Note: Customer is responsible for additional labor charges as a result of cooking equipment layout changes after the release of the order, union labor or prevailing wage charges, or additional trips by fire system distributor caused by jobsite delays, permits, fees or test required by local authority. Submittal will specify applicable testing and approval agencies. **The fire suppression system final hook is included on this quote. The final hook up usually consists of, but is not limited to, the chemical agent, Wet chemical cylinder, field piping/re-piping, detection and pull station line(s), tests, and permits.** Hook up for the fire system must be performed by an Authorized Distributor. If not installed by a certified technician, then the warranty on this product will be voided.

**Grease Ducks Ltd. requirement for all field hook ups:** All fire system detection conduit must be half inch EMT. All conduit fittings must be compression type and fully tightened. All conduit ends must be reamed and deburred and blown clear of debris prior to assembly. All conduit must be fully and robustly supported to avoid accidental fire system discharge.

Grease Ducks Ltd., product must be installed in accordance with installation instructions provided with equipment or available on our web site at [www.greaseducks.com](http://www.greaseducks.com).

## SHIPPING
