

Steps to complete this service:

To access the ducts, go to the mezzanine above the kitchen.

You will need a hard key with tag number 297 for this service.

(When passdown requests, also ask for the hard key, the freight elevator, and access to the loading dock area.)

- 1- First, digitally turn off the system using the panel inside the kitchen.
- 2- Find the door on the northeast side outside the kitchen (close to the two northern exit doors).
- 3- Use the stairs to reach the upper floor.
- 4- Use the mechanical key to shut off the hood power.
- 5- Remove the white covers to access the ducts.
- 6- The ducts can be cleaned through two access vents.
- 7- After finishing, return everything to its original state.

Place your feet and equipment in a secure and safe position!!
