## CONTRACTOR BENEFITS

We are committed to making sure that our contractor members receive value from their investment in ContractorCheck and work hard to make sure they take advantage of all that the program has to offer.

### Risk Mitigation

With a ContractorCheck Accreditation, contractors can rest easy knowing they have documentation to prove legislative, client-specific and insurance compliance. By annually reviewing health and safety policies with ContractorCheck, contractors reduce their overall risk and raise awareness of health and safety within their company. Our dedicated insurance specialists check over each certificate before it is uploaded to the Client Portal.

### ContractorCare

ContractorCare is a one-to-one service we offer our member contractors. They receive coaching on the ContractorCheck program as a whole, help completing their questionnaire if they need it, and guidance on any outstanding information required to complete their Accreditation. It's an opportunity we enjoy, as we value getting to know our contractors, addressing their needs directly, and seeing that they move through the ContractorCheck program efficiently.

### Membership Includes

#### ACCESS TO OUR HEALTH AND SAFETY STAFF

If there's ever a health and safety question or situation that they need advice on, our team is there throughout the year to help and advise.

#### MARKETING OPPORTUNITIES

We want to help our contractors to grow their business through ContractorCheck

Whether it's our social media presence, branding, our newsletter or our online database, we are constantly working to give Accredited contractors more exposure to our client base

#### PEACE OF MIND

ContractorCheck contractors are confident when engaging with clients that their health and safety information is compliant with government legislation, and that they're doing all they can to be safe on the job

Contractors can easily access their stored information, which makes it easier and less time-consuming every time they bid for a job

## CONTRACTOR PRICING
